Islet
Eye
Cortex
Lung
per-gene
canonical
set z of the gap (• |z| ≥ 1.96);
right: mean z of each reading
(f)
partial ρ with independent reference
(given covariates and the other reading)
per-gene reading, given canonical
canonical reading, given per-gene
(g)
partial ρ(gap, constraint)
given π, expression, detection
dN/dS, human-mouse
LOEUF
